

Try naak Connect RISK FREE

SATISFACTION GUARANTEED - LIMITED TRIAL OFFER

There is nothing more powerful than experiencing something for yourself. We're so convinced naak will unlock new value and opportunities for your business, we're making this offer available to a limited number of qualifying companies interested in exploring how energy services can impact their bottom line and increase their competitive edge.

The naak experience 100% risk free!

How do you take advantage of this?

Schedule a Partner Assessment call to help us pin down your specific use case and ensure we're a good match.

Then, purchase up to 10 Subscriptions under these ridiculously good terms only being offered to the first 10 companies to sign up as Trial Partners.

naak Connect services maximize and futureproof the value of solar and storage by connecting each distributed energy system to the Internet of Energy via the naak private communications network and cloud platform. naak's Energy Autopilot mode, powered by carbonTRACK's Analytical-Q engine, ensures systems respond to changing customer needs and market signals in real-time, reducing risk while increasing ROI.
